## **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions, and listings, of claims in the application:

### **Listing of Claims:**

12. (Currently Amended) A method for treating papermachine or filtration fabric having one of synthetic yarns and fibers in a continuous process, the method including ~~the step of continuously subjecting at least one surface of one of a layer and a component offeeding the fabric to solvent free plasma treatment inthrough a plasma chamber having a water free helium containing atmosphere and subjecting at least one surface of the fabric to solvent free plasma treatment, the water free helium containing atmosphere having a pressure above ambient self-sealing fabric entry and exit openings.~~

13. (Previously Amended) The method according to claim 12, wherein said plasma treatment includes one of glow discharge, dielectric barrier discharge and spray discharge plasma to provide activated sites for subsequent coating or dyeing.

14. (Original) A method according to claim 12, wherein the plasma contains oxygen, air or ammonia.

15. (Previously Amended) The method according to claim 12, wherein the plasma contains one of a silane, a siloxane, and a perfluorocarbon.

16. (Previously Amended) The method according to claim 12, wherein the plasma contains a silane of Si(CH<sub>3</sub>)<sub>4</sub>.

Application No. 09/462,506

Amendment Dated June 30, 2003

Reply to Final Office Action of March 31, 2003

17. (Previously Amended) The method according to claim 12, wherein the plasma contains a siloxane of Si(OCH<sub>3</sub>)<sub>4</sub>.

18. (Previously Amended) The method according to claim 12, wherein the plasma contains a perfluorocarbon of 1-6C perfluoroalkane, tetrafluoroethylene, or a combination thereof.

19. (Original) A method according to claim 12, wherein the plasma contains a hydrocarbon.

20. (Original) A method according to claim 12, wherein the plasma contains one or more halogenated hydrocarbons or unsaturated amines.

21. (Currently Amended) The method according to claim 20, wherein the plasma is diluted by includes helium.

26. (Currently Amended) The method of claim 12, wherein the fabric includes one of sintered felts, ~~coatings of~~ coated papermaking fabrics, non-wovens and films, spiral link structures, membrane and polymer matrix material.
